# Acrylic Matt

# Acrylic Gloss

Kronospan's new Acrylic Matt boards have a fine and subtle acrylic texture with an elegant matt appearance and a tactile appeal. They are based on Kronospan's 17 mm premium MDF material, covered with 0.7 mm matt lacquered acrylic on the front side of the board and a 0.6 mm high-impact polystyrene film to the reverse side to improve its stability. The boards have excellent impact strength, scrub resistance, high UV stability and improved anti-fingerprint properties, as well as a protective PE foil that shields their surface. Acrylic Matt Boards are specially developed for the creation of furniture components, interior design, retail and commercial applications, giving them a soft touch finish.

UV STABILITY

Kronospan's Acrylic Gloss boards are universally recognized as a high-end product, conveying an exceptional high gloss level and deep colors. They are based on Kronospan's 17 mm MDF material covered with 0.7 mm gloss lacquered acrylic bonded on the front side and a 0.6 mm high-impact polystyrene film to the reverse side to improve the stability of the board.

The boards have excellent scrub and chemical resistance, high UV stability and are supplied with a PE foil, protecting the surface during handling and processing. With Acrylic Gloss Boards you can achieve exceptionally high gloss levels with improved wear resistance, perfect for the creation of furniture components, kitchen doors, interior design and commercial spaces.

# Acrylic Boards

Kronospan's Acrylic boards combine the look and feel of a solid surface acrylic in either a ultra high gloss or smooth matt in a range of 6 uni colors. The addition of a high scrub resistance surface coating (TopX & TopMatt) takes the material into a new dimension and provides an acrylic panel which has market leading durability.

All boards have excellent wear resistance and are supplied with a protective surface PE foil that once removed, leaves the exclusive surface on display with no need for polishing.

Matching ABS edging is available for all decors, providing the boards with a neat finish and durability.
